| 學生圖像：   | 1.知識堅實：知識運用、科技整合、思辨統整、文化美學、閱讀理解。， 2.能力顯著：自主學習、數位科技、自我超越、問題解決、外語應用。， 3.個性完善：愛心熱誠、誠信正直、自律自省。， 4.群性鮮明：接納同理、社會公民、團體合作、文化洞察、方案執行、國際理解。，                                                                                                                                                                                                                                                                                                                                                                                                                                                              |                                                               |                                                         |
| 學習目標：   | This course enables you to develop or expand your knowledge and skills related to hospitality and tourism, as reflected in the various sectors of the tourism industry. You will learn about preparing and presenting food, evaluating facilities, controlling inventory, and marketing and managing events and activities, and will investigate customer service principles and the cultural and economic forces that drive tourism trends. You will develop an awareness of health and safety standards, environmental and societal issues, and career opportunities in the tourism industry. |                                                               |                                                         |

| 學習目標：       | AP Studio Art 2-D is designed for students who are seriously interested in the practical experience of art. The AP program is based on the premise that college-level material can be taught successfully to secondary school students. This is a chance for the visually gifted to excel and receive recognition on a national scale. It allows students to compare their work with that of other high school students throughout the nation and helps them prepare an excellent portfolio for study at the college level. |        |                                                                                                                   |

| 學習目標：       | AP Computer Science A is a course designed to awaken and support students' problem-solving skills. The course will introduce the Java programming language while emphasizing universal language techniques like syntax, semantics and readability. While Java is the official AP CS A language, the concepts taught are applicable to any industry standard language such as Python, C++, C#, and JavaScript. Students will gain mastery in programming concepts by using a subset of Java features that are covered when needed throughout the course content. This allows the student to understand and master important concepts that will apply to programming problems in many additional languages. |                                                                                                                                                                         |

| 學生圖像：   | 1.知識堅實：知識運用、科技整合、思辨統整、文化美學、閱讀理解。， 2.能力顯著：自主學習、數位科技、自我超越、問題解決、外語應用。， 3.個性完善：愛心熱誠、誠信正直、自律自省。， 4.群性鮮明：接納同理、社會公民、團體合作、文化洞察、方案執行、國際理解。，                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                             |                                                                |
| 學習目標：   | This course provides you with the fundamental knowledge of and skills relating to environmental science that will help you succeed in life after secondary school. You will explore a range of topics, including the role of science in addressing contemporary environmental challenges; the impact of the environment on human health; sustainable agriculture and forestry; the reduction and management of waste; and the conservation of energy. You will increase your scientific and environmental literacy and examine the interrelationships between science, the environment, and society in a variety of areas. |                                             |                                                                |
| 教學大綱：   | 週次/序                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | 單元/主題                                       | 內容綱要                                                           |

| 學生圖像：       | 1.知識堅實：知識運用、科技整合、思辨統整、文化美學、閱讀理解。 , 2.能力顯著：自主學習、數位科技、自我超越、問題解決、外語應用。 , 3.個性完善：愛心熱誠、誠信正直、自律自省。 , 4.群性鮮明：接納同理、社會公民、團體合作、文化洞察、方案執行、國際理解。 ,                                                                                                                                                                                                                                                                                                                                                     |                              |
| 學習目標：       | This course provides you with opportunities to think critically about theories, questions, and issues related to anthropology, psychology, and sociology. You will develop an understanding of the approaches and research methods used by social scientists. You will also be given opportunities to explore theories from a variety of perspectives, to conduct social science research, and to become familiar with current thinking on a range of issues within the three disciplines. |                              |

| 學生圖像：       | 1.知識堅實：知識運用、科技整合、思辨統整、文化美學、閱讀理解。 , 2.能力顯著：自主學習、數位科技、自我超越、問題解決、外語應用。 ,                                                                                                                                                                                      |                         |                                                                                    |
| 學習目標：       | 本課程以高中物理為基礎，依循半導體歷史的發展脈絡，著重在其概念的理解與建立，避免過度涉入理論或數學公式。目標在於幫助學生了解物理學家的思考方式與科技的發展過程並且：<br>(1) 了解量子理論的產生過程及其主要觀念<br>(2) 經由量子理論，了解半導體材料的獨特性質<br>(3) 利用半導體材料的特性，了解幾種半導體元件(包括二極體、電晶體、積體電路、發光二極體及太陽電池等)的基本原理及製作方式<br>(4) 基於半導體元件及積體電路的製作方式，了解半導體廠製造管理的重要概念及半導體產業的現況 |                         |                                                                                    |
| 教學大綱：       | 週次/<br>序                                                                                                                                                                                                                                                   | 單元/主題                   | 內容綱要                                                                               |
|             | 一                                                                                                                                                                                                                                                          | 20世紀初的物理難題              | 討論20世紀初物理學家如何處理一些古典物理無法解釋的物理現象，進而導引出物理量被量子化(例如能量必須做不連續性變化)的假設以及波粒二重性的出現。           |
|             | 二                                                                                                                                                                                                                                                          | 原子的基本結構                 | 介紹物理學家如何利用精心設計的實驗逐步了解原子的結構(例如電子及原子核的存在)，並說明波爾原子模型如何解釋古典物理無法解釋的原子輻射光譜。              |
|             | 三                                                                                                                                                                                                                                                          | 20世紀最重要的物理發展:量子理論的出現    | 介紹量子理論的第一個假說(德布羅伊假說)及量子力學的第一個公式(薛丁格方程式)，並解釋為何在解量子力學問題時會出現能量量子化(即能量做不連續性變化)的現象及量子態。 |
|             | 四                                                                                                                                                                                                                                                          | 量子理論應用在原子結構上            | 將量子理論應用在氫原子，進而推衍出原子中電子分布的s軌域、p軌域、d軌域等量子態及各量子態對應的能階。                                |
|             | 五                                                                                                                                                                                                                                                          | 原子如何堆積成固體及晶體            | 介紹各種原子鍵結方式(包括離子鍵、金屬鍵及共價鍵等)，進而說明晶體與非晶體的不同、及晶體的形成模式。                                 |
|             | 六                                                                                                                                                                                                                                                          | 能帶的出現與固體電性的關係           | 以定量方式描述在晶體中形成能帶的過程，討論能帶與固體電性的關係(包括導體、半導體及絕緣體間的能帶結構有何不同)                            |
|             | 七                                                                                                                                                                                                                                                          | 半導體為什麼可以做出導體及絕緣體做不出來的元件 | 說明雜質在純淨半導體材料中對導電特性的影響，進而介紹n型半導體及p型半導體。                                             |
|             | 八                                                                                                                                                                                                                                                          | 二極體性質與結構                | 介紹二極體工作原理與二極體電路。                                                                   |
|             | 九                                                                                                                                                                                                                                                          | 半導體元件怎樣做出開關及放大訊號的功能     | 介紹電晶體的工作原理與訊號放大的方式。                                                                |
|             | 十                                                                                                                                                                                                                                                          | 雙極性接面電晶體                | 介紹BJT的三種放大電路與實作訊號放大電路。                                                             |
|             | 十一                                                                                                                                                                                                                                                         | 如何將半導體元件做到極小            | 介紹基本的半導體元件製作程序，解釋為何積體電路可以做到極小、以及為何積體電路製程要求極高的原物料純淨度及環境清潔度。                         |

| 學生圖像：       | 1.知識堅實：知識運用、科技整合、思辨統整、文化美學、閱讀理解。 , 2.能力顯著：自主學習、數位科技、自我超越、問題解決、外語應用。 , 3.個性完善：愛心熱誠、誠信正直、自律自省。 , 4.群性鮮明：接納同理、社會公民、團體合作、文化洞察、方案執行、國際理解。 ,                                                                                                                                                                                                                                                                                                                           |                                                                                                                                    |
| 學習目標：       | This course focuses on marketing activities in the retail and service sectors. You will examine trends and global influences on marketing decisions, and will learn about the importance of customer service in developing a customer base and maintaining customer loyalty. Through hands-on learning, you will develop personal selling and information technology skills that will prepare you for a variety of marketing-related positions in the workplace. |                                                                                                                                    |

| 學生圖像：       | 1.知識堅實：知識運用、科技整合、思辨統整、文化美學、閱讀理解。，2.能力顯著：自主學習、數位科技、自我超越、問題解決、外語應用。，3.個性完善：愛心熱誠、誠信正直、自律自省。，4.群性鮮明：接納同理、社會公民、團體合作、文化洞察、方案執行、國際理解。，                                                                                                                                                                                                                               |                                                                                                                                                              |
| 學習目標：       | Global Issues embraces a multidisciplinary approach in understanding the increasingly complex questions confronting the world today. Understanding global problems is the initial stage towards conceiving globalized solutions. This course capitalizes and centers on the privileged position of the youth in their ability to passion a better generation. |                                                                                                                                                              |

| 學生圖像：       | 1.知識堅實：知識運用、科技整合、思辨統整、文化美學、閱讀理解。 , 2.能力顯著：自主學習、數位科技、自我超越、問題解決、外語應用。 , 3.個性完善：愛心熱誠、誠信正直、自律自省。 , 4.群性鮮明：接納同理、社會公民、團體合作、文化洞察、方案執行、國際理解。 ,                                                                                                                                                                                                                                                                                                                                                   |                                                                                                      |
| 學習目標：       | This course emphasizes knowledge and skills that will enable you to understand media communication in the twenty-first century and to use media effectively and responsibly. Through analyzing the forms and messages of a variety of media works and audience responses to them, and through creating your own media works, you will develop critical thinking skills, aesthetic and ethical judgement, and skills in viewing, representing, listening, speaking, reading, and writing. |                                                                                                      |

| 學習目標：   | This course enables you to further develop your knowledge and skills in visual arts. You will use the creative process to explore a wide range of themes through studio work that may include drawing, painting, sculpting, and printmaking, as well as the creation of collage, multimedia works, and works using emerging technologies. You will use the critical analysis process when evaluating your own work and the work of others. |                                                                                              |

| 師資來源：   | 校內單科                                                                                                                            |          |
| 課綱核心素養： | A自主行動：A1.身心素質與自我精進，A2.系統思考與問題解決，A3.規劃執行與創新應變，                                                                                   |          |
|         | B溝通互動：B1.符號運用與溝通表達，B2.科技資訊與媒體素養，                                                                                                |          |
|         | C社會參與：C1.道德實踐與公民意識，C2.人際關係與團隊合作，C3.多元文化與國際理解，                                                                                   |          |
| 學生圖像：   | 1.知識堅實：知識運用、科技整合、思辨統整、文化美學、閱讀理解。，2.能力顯著：自主學習、數位科技、自我超越、問題解決、外語應用。，3.個性完善：愛心熱誠、誠信正直、自律自省。，4.群性鮮明：接納同理、社會公民、團體合作、文化洞察、方案執行、國際理解。， |          |
| 學習目標：   | 根據實際問題建立數學模型，深入調查研究、了解對象訊息、簡化假設、分析、尋找規律，用數學符號及語言作為表述，進而解決實際問題。                                                                  |          |

| 學習目標：   | This course enables you to develop or expand your knowledge and skills related to hospitality and tourism, as reflected in the various sectors of the tourism industry. You will learn about preparing and presenting food, evaluating facilities, controlling inventory, and marketing and managing events and activities, and will investigate customer service principles and the cultural and economic forces that drive tourism trends. You will develop an awareness of health and safety standards, environmental and societal issues, and career opportunities in the tourism industry. |                                                                                                 |

| 學習目標：       | This course will broaden your understanding of mathematics as it relates to managing data. You will apply methods for organizing and analyzing large amounts of information; solve problems involving probability and statistics; and carry out a culminating investigation that integrates statistical concepts and skills. You will also refine your use of the mathematical processes necessary for success in senior mathematics. If you are planning to enter university programs in business, the social sciences, and the humanities you will find this course of particular interest. |                                                                                                                                                                                                                                                                                                |

| 學生圖像：   | 1.知識堅實：知識運用、科技整合、思辨統整、文化美學、閱讀理解。 , 2.能力顯著：自主學習、數位科技、自我超越、問題解決、外語應用。 , 3.個性完善：愛心熱誠、誠信正直、自律自省。 , 4.群性鮮明：接納同理、社會公民、團體合作、文化洞察、方案執行、國際理解。 ,                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                     |
| 學習目標：   | This course examines the nature of culture; how cultural identities are acquired, maintained, and transformed; and theories used to analyze cultures. You will explore world cultures, with an emphasis on the analysis of religious and spiritual beliefs, art forms, and philosophy. You will study the contributions and influence of a range of cultural groups and will critically analyze issues facing ethnocultural groups around the world. You will also develop and apply research skills and design and implement a social action initiative relating to cultural diversity. |                                     |

| 學生圖像：   | 1.知識堅實：知識運用、科技整合、思辨統整、文化美學、閱讀理解。 , 2.能力顯著：自主學習、數位科技、自我超越、問題解決、外語應用。 , 3.個性完善：愛心熱誠、誠信正直、自律自省。 , 4.群性鮮明：接納同理、社會公民、團體合作、文化洞察、方案執行、國際理解。 ,                                                                                                          |                                              |                                                         |
| 學習目標：   | This course develops your understanding of Earth, its place in the universe and the evolution of life. You will investigate the forces in the universe and solar system and will learn about the origin of life and how life evolves over time. |                                              |                                                         |

| 學習目標：   | This course focuses on the use of social science theories, perspectives, and methodologies to investigate and explain shifts in knowledge, attitudes, beliefs, and behavior and their impact on society. Students will critically analyze how and why cultural, social, and behavioral patterns change over time. They will explore the ideas of social theorists and use those ideas to analyze causes of and responses to challenges such as technological change, deviance, and global inequalities. Students will explore ways in which social science research methods can be used to study social change. |                                                              |

| 學生圖像：   | 1.知識堅實：知識運用、科技整合、思辨統整、文化美學、閱讀理解。， 2.能力顯著：自主學習、數位科技、自我超越、問題解決、外語應用。， 3.個性完善：愛心熱誠、誠信正直、自律自省。， 4.群性鮮明：接納同理、社會公民、團體合作、文化洞察、方案執行、國際理解。，                                                                                                                                                                                                                                              |                                                      |                                                                                                                                                                                                                                                                                                          |
| 學習目標：   | This course is for students with a special interest in literature and literary criticism. The course may focus on themes, genres, time periods, or countries. You will analyze a range of forms and stylistic elements of literary texts and respond personally, critically, and creatively to them. You will also assess critical interpretations and write analytical essays. |                                                      |                                                                                                                                                                                                                                                                                                          |

| 學生圖像：   | 1.知識堅實：知識運用、科技整合、思辨統整、文化美學、閱讀理解。 , 2.能力顯著：自主學習、數位科技、自我超越、問題解決、外語應用。 , 3.個性完善：愛心熱誠、誠信正直、自律自省。 , 4.群性鮮明：接納同理、社會公民、團體合作、文化洞察、方案執行、國際理解。 ,                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                  |
| 學習目標：   | This course emphasizes knowledge and skills related to the craft of writing. Students will analyze models of effective writing; use a workshop approach to produce a range of works; identify and use techniques required for specialized forms of writing; and identify effective ways to improve the quality of their writing. They will also complete a major paper as part of a creative or analytical independent study project and investigate opportunities for publication and for writing careers. |                                                                                                                                                                                                                                                                                  |

| 學生圖像：       | 1.知識堅實：知識運用、科技整合、思辨統整、文化美學、閱讀理解。，2.能力顯著：自主學習、數位科技、自我超越、問題解決、外語應用。，3.個性完善：愛心熱誠、誠信正直、自律自省。，4.群性鮮明：接納同理、社會公民、團體合作、文化洞察、方案執行、國際理解。，                                                                                                                                                                                                                                                                                                       |                                             |
| 學習目標：       | This course emphasizes practical writing and communication skills that are needed in the world of business and technology. You will analyze the characteristics of effective models of business and technical communications; gather information to write reports, business letters, memos, manuals, instructions, and brochures; and integrate graphics and text, using technology appropriately for formatting and special effects. |                                             |

| 學習目標：   | This course focuses on the development of leadership skills used in managing a successful business. You will analyze the role of a leader in business with a focus on decision-making, management of group dynamics, workplace stress and conflict, motivation of employees, and planning. Effective business communication skills, ethics, and social responsibility are also emphasized. |                                                                               |                                                                                                                                                                                                    |

| 學習目標：       | Global Issues embraces a multidisciplinary approach in understanding the increasingly complex questions confronting the world today. Understanding global problems is the initial stage towards conceiving globalized solutions. This course capitalizes and centers on the privileged position of the youth in their ability to passion a better generation. |                                                                                                                                                                                                                                                                                       |

| 學習目標：   | This course extends students' experience with functions. Students will investigate the properties of polynomial, rational, logarithmic, and trigonometric functions; develop techniques for combining functions; broaden their understanding of rates of change; and develop facility in applying these concepts and skills. Students will also refine their use of the mathematical processes necessary for success in senior mathematics. This course is intended both for students taking the Calculus and Vectors course as a prerequisite for a university program and for those wishing to consolidate their understanding of mathematics before proceeding to any one of a variety of university programs. |                                                                                                                                                                                                                                                                                                                                                        |

|    | aphs of logarithmic functions                                                                                    | parameters $d$ and $c$ in functions of the form $y = \log(x - d) + c$ and the roles of the parameters $a$ and $k$ in functions of the form $y = a \log(kx)$ , and describe these roles in terms of transformations graph of $f(x) = \log_{10}x$                                                                                                                                                                                      |
| 七  | Unit 2: Exponential and Logarithmic Functions - B Lesson 3: Graphs of logarithmic functions                      | Students will pose problems based on real-world applications of exponential and logarithmic functions (e.g., exponential growth and decay, the Richter scale, the pH scale, the decibel scale), and solve these and other such problems by using a given graph or a graph generated with technology from a table of values or from its equation                                                                                      |
| 八  | Unit 2: Exponential and Logarithmic Functions - B Lesson 5: Exponential and logarithmic functions                | Students will recognize equivalent algebraic expressions involving logarithms and exponents, and simplify expressions of these types                                                                                                                                                                                                                                                                                                 |
| 九  | Unit 2: Exponential and Logarithmic Functions - B Lesson 5: Exponential and logarithmic functions                | Students will solve problems involving exponential and logarithmic equations algebraically, including problems arising from real-world applications                                                                                                                                                                                                                                                                                  |
| 十  | Unit 3: Polynomial and Rational Functions - A Lesson 6: Polynomial functions                                     | Students will recognize a polynomial expression (i.e., a series of terms where each term is the product of a constant and a power of $x$ with a nonnegative integral exponent, such as $x^3 - 5x^2 + 2x - 1$ )                                                                                                                                                                                                                       |
| 十一 | Unit 3: Polynomial and Rational Functions - A Lesson 7: Polynomial equations and graphs                          | Students will compare, through investigation using graphing technology, the numeric, graphical, and algebraic representations of polynomial (i.e., linear, quadratic, cubic, quartic) functions                                                                                                                                                                                                                                      |
| 十二 | Unit 3: Polynomial and Rational Functions - A Lesson 7: Polynomial equations and graphs                          | Students will describe key features of the graphs of polynomial functions                                                                                                                                                                                                                                                                                                                                                            |
| 十三 | Unit 3: Polynomial and Rational Functions - A Lesson 8: Transformations and applications of polynomial functions | Students will determine an equation of a polynomial function that satisfies a given set of conditions (e.g., degree of the polynomial, intercepts, points on the function), using methods appropriate to the situation                                                                                                                                                                                                               |
| 十四 | Unit 3: Polynomial and Rational Functions - A Lesson 8: Transformations and applications of polynomial functions | Students will determine, through investigation, and compare the properties of even and odd polynomial functions                                                                                                                                                                                                                                                                                                                      |
| 十五 | Unit 4: Polynomial and Rational Functions - B Lesson 9: Rational functions                                       | Students will determine, through investigation with and without technology, key features (i.e., vertical and horizontal asymptotes, domain and range, intercepts, positive/negative intervals, increasing/decreasing intervals) of the graphs of rational functions that are the reciprocals of linear and quadratic functions, and make connections between the algebraic and graphical representations of these rational functions |
| 十六 | Unit 4: Polynomial and Rational Functions - B Lesson 9: Rational functions                                       | Students will determine, through investigation with and without technology, key features (i.e., vertical and horizontal asymptotes, domain and range, intercepts, posi-                                                                                                                                                                                                                                                              |

|       |                             |                                                                                             |                                                                                                                                                           |
|-------|-----------------------------|---------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
|       |                             |                                                                                             | ve/negative intervals, increasing/decreasing intervals) of the graphs of rational functions that have linear expressions in the numerator and denominator |
|       | 十七                          | Unit 4: Polynomial and Rational Functions - B Lesson 10: Applications of rational functions | Students will make connections between the algebraic and graphical representations of these rational functions                                            |
|       | 十八                          | Unit 4: Polynomial and Rational Functions - B Lesson 10: Applications of rational functions | Students will sketch the graph of a simple rational function using its key features, given the algebraic representation of the function                   |
|       | 十九                          |                                                                                             |                                                                                                                                                           |
|       | 二十                          |                                                                                             |                                                                                                                                                           |

| 學生圖像：   | 1.知識堅實：知識運用、科技整合、思辨統整、文化美學、閱讀理解。，2.能力顯著：自主學習、數位科技、自我超越、問題解決、外語應用。，3.個性完善：愛心熱誠、誠信正直、自律自省。，4.群性鮮明：接納同理、社會公民、團體合作、文化洞察、方案執行、國際理解。，                                                                                                                                                                                                                                                                                                                                                                                          |                                                                                                          |
| 學習目標：   | The aims of this course are for the students to listen to, read, and respond to English-language news while learning about a variety of topical issues. The students will be able to understand short written, audio, or video news texts about current topics. They will also learn to explain the main points of a news story and discuss their opinions about it with reasons and examples. Students will develop a critical understanding of how news events, issues, and people are represented in different texts. |                                                                                                          |

| 學生圖像：   | 1.知識堅實：知識運用、科技整合、思辨統整、文化美學、閱讀理解。，2.能力顯著：自主學習、數位科技、自我超越、問題解決、外語應用。，3.個性完善：愛心熱誠、誠信正直、自律自省。，4.群性鮮明：接納同理、社會公民、團體合作、文化洞察、方案執行、國際理解。，                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                     |
| 學習目標：   | Economics is the study of how individuals, groups, and countries deal with the problem of limited resources and unlimited wants and needs. This course helps students gain a deeper understanding of important concepts such as tradeoffs, opportunity cost, supply and demand, saving and investing, production and consumption, fiscal and monetary policy, inflation and unemployment, and trade policy. Upon successful completion of the course students should be better able to assess the economic policy decisions that affect them, their community and their country. |                                                                                                                                                                                     |

內容綱要

歐姆定律  
克西荷夫定律  
惠斯同電橋

電阻串並聯實驗  
熟習電源供應器及三用電表的使用

諾頓等效電路、戴維寧等效電路  
米勒定律

基本訊號波型的認識  
基本訊號波型的數學

電容充放電實驗

RC電路震盪實驗

RL電路實驗(交流電)

RLC帶通濾波器(交流電)

本質半導體  
能帶理論  
外質半導體與傳導載體

PN接面的物理性質  
順向偏壓區特性  
逆向偏壓區特性

稽納二極體  
二極體的等效模型

二極體整流電路實驗

電容濾波器

LC濾波器

電蚊拍拆解

壘增倍壓電路實作一

壘增倍壓電路實作二

電蚊拍電路實作分享

| 學習目標：   | This Art History course begins in the Renaissance in Western Europe, because 1500 was an important moment for Western culture, and finishes off the second half of the millennium. Students will visit virtual museums all over the world, and look at the connections among various types of art that have been created for the past 500 years. This course aims to expand the student's understanding and love of history and visual art. |                                                                                                                                     |

內容綱要

學期課程介紹，作品集方向概述與學生自介

於課堂協同發展作品集概念

於課堂協同發展作品集概念

於課堂協同發展作品集概念

於環境中尋找各式“點”概念之呈現，並以手機記錄下來，並延伸各種點的呈現可能

於課堂協同繪製作品集各系列草稿

於課堂協同繪製作品集各系列草稿

於課堂協同繪製作品集各系列草稿

於環境中尋找各式“線”概念之呈現，並以手機記錄下來，將各種線性以多元方式呈現

於課堂協同繪製作品集各系列圖像

於課堂協同繪製作品集各系列圖像

於課堂協同繪製作品集各系列圖像

於環境中尋找各式“面”概念之呈現，並以手機記錄下來，思考多層平面的各式建構可能性

於課堂協同作品集各系列圖像完稿

於課堂協同作品集各系列圖像完稿

於課堂協同作品集各系列圖像完稿

於課堂協同作品集各系列圖像完稿

期末發表個人作品集解析並闡述未來展望

| 九  | Expanding Circuits          | Describe a circuit or elements within a circuit by applying Kirchhoff's Loop rule.<br>Describe a circuit or elements within a circuit by applying Kirchhoff's Junction rule.<br>Describe the equivalent capacitance of multiple capacitors.<br>Describe the behavior of circuits containing combinations of resistors and capacitors.                                                                                                                                                                                                                |
| 十  | Magnetism                   | Describe the properties of a magnetic field.<br>Describe the magnetic behavior of material as a result of the configuration of magnetic dipoles within the material.<br>Describe the magnetic permeability of a material.                                                                                                                                                                                                                                                                                                                            |
| 十一 | Magnetism and Moving Charge | Describe the magnetic field produced by moving charged objects.<br>Describe the force exerted on moving charged objects by a magnetic field.<br>Describe the magnetic field produced by a current-carrying wire.<br>Describe the force exerted on a current carrying wires by a magnetic field                                                                                                                                                                                                                                                       |
| 十二 | Magnetic Laws               | Use Ampere's law to describe the magnetic field created by a moving charge carrier.<br>Describe the behavior of a system using the laws of the conservation of charge.<br>Describe the resistance of an object using physical properties of an object.<br>Describe the magnetic field produced by a current-carrying wire.<br>Describe the rotation of a system with respect to time using angular displacement, angular velocity, and acceleration.<br>Describe the induced electric potential difference resulting from a change in magnetic flux. |
| 十三 | Electromagnetic Induction   | Describe the magnetic flux through an arbitrary area or geometric shape.<br>Describe the induced electric potential difference resulting from a change in magnet                                                                                                                                                                                                                                                                                                                                                                                     |

|       |                                                        |                                                                                                                                                                                                                                                       |
|-------|--------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|       |                                                        | ic flux.<br>Describe the forces exerted on a object that arise from magnetic interaction.<br>Describe the physical and electrical properties of an inductor.                                                                                          |
|       | 十四 Inductors and Circuits                              | Describe the physical and electrical properties of a circuit containing combinations of capacitors and a single inductor.<br>Describe the physical and electrical properties of a circuit containing combinations of resistors and a single inductor. |
|       | 十五 Electricity & Magnetism Review and AP Practice Exam | Review knowledge of Electricity and Magnetism topics and prepare for the AP Physics C Exam by completing Progress Checks.<br>Take a Mechanics AP Practice Exam.                                                                                       |
|       | 十六 AP Exam Review and Reflection                       | Reflect on performance on AP Practice Exam.<br>Prepare to take the real AP Exam.                                                                                                                                                                      |
|       | 十七 Course End Tasks                                    | Provide feedback about your experience in this course.<br>Reflect on how well prepared you feel for the exam.<br>Properly disassemble the lab kit.                                                                                                    |
|       | 十八 Review                                              | Review                                                                                                                                                                                                                                                |
|       | 十九                                                     |                                                                                                                                                                                                                                                       |
|       | 二十                                                     |                                                                                                                                                                                                                                                       |
|       | 二十一                                                    |                                                                                                                                                                                                                                                       |
|       | 二十二                                                    |                                                                                                                                                                                                                                                       |
| 學習評量： | 40% 課堂參與討論、30% 回家作業、30% 專題報告                           |                                                                                                                                                                                                                                                       |

| 學習目標：       | This course will broaden your understanding of mathematics as it relates to managing data. You will apply methods for organizing and analyzing large amounts of information; solve problems involving probability and statistics; and carry out a culminating investigation that integrates statistical concepts and skills. You will also refine your use of the mathematical processes necessary for success in senior mathematics. If you are planning to enter university programs in business, the social sciences, and the humanities you will find this course of particular interest. |                                                                                                                                                                                                                                                                                                                                                                                                                                  |

|             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Students will recognize conditions (e.g., dependent trials) that give rise to a random variable that follows a hypergeometric probability distribution, calculate the probability associated with each value of the random variable                                                                                                                                                                                              |
|             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Students will recognize and identify a continuous random variable (i.e., a variable that assumes values from the infinite number of possible outcomes in a continuous sample space), and distinguish between situations that give rise to discrete frequency distributions (e.g., counting the number of outcomes for drawing a card or tossing three coins) and situations that give rise to continuous frequency distributions |
|             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Students will describe challenges associated with determining a continuous frequency distribution                                                                                                                                                                                                                                                                                                                                |

|    |                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                               |
|----|----------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 八  | Lesson 17: Continuous random variables and the normal distribution                           | Students will recognize standard deviation as a measure of the spread of a distribution, and determine, with and without technology, the mean and standard deviation of a sample of values of a continuous random variable                                                                                                                                                                                                    |
| 九  | Lesson 17: Continuous random variables and the normal distribution                           | Students will recognize that theoretical probability for a continuous random variable is determined over a range of values                                                                                                                                                                                                                                                                                                    |
| 十  | Revision                                                                                     | Questions and discussions                                                                                                                                                                                                                                                                                                                                                                                                     |
| 十一 | Unit 7: Probability distribution - Part B Lesson 18: Applications of the normal distribution | Students will make connections, through investigation using dynamic statistical software, between the normal distribution and the binomial and hypergeometric distributions for increasing numbers of trials of the discrete distributions                                                                                                                                                                                    |
| 十二 | Lesson 18: Applications of the normal distribution                                           | Students will recognize that the normal distribution is commonly used to model the frequency and probability distributions of continuous random variables, describe some properties of the normal distribution                                                                                                                                                                                                                |
| 十三 | Lesson 19: Designing and carrying out an investigation                                       | Students will design a plan to study the problem (e.g., identify the variables and the population; develop an ethical survey; establish the procedures for gathering, summarizing, and analyzing the primary or secondary data)                                                                                                                                                                                               |
| 十四 | Lesson 19: Designing and carrying out an investigation                                       | Students will draw conclusions from the analysis of the data (e.g., determine whether the analysis solves the problem), evaluate the strength of the evidence (e.g., by considering factors such as sample size or bias, or the number of times a game is played), specify any limitations of the conclusions, and suggest follow-up problems or investigations                                                               |
| 十五 | Lesson 20: Case study                                                                        | Students will interpret statistics presented in the media (e.g., the UN's finding that 2% of the world's population has more than half the world's wealth, whereas half the world's population has only 1% of the world's wealth), and explain how the media, the advertising industry, and others (e.g., marketers, pollsters) use and misuse statistics (e.g., as represented in graphs) to promote a certain point of view |
| 十六 | Lesson 20: Case study                                                                        | Students will assess the validity of conclusions presented in the media by examining sources of data, including Internet sources, methods of data collection, and possible sources of bias, and by questioning the analysis of the data                                                                                                                                                                                       |
| 十七 |                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 十八 |                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 十九 |                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 二十 |                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                               |

| 學習目標：       | This course examines the nature of culture; how cultural identities are acquired, maintained, and transformed; and theories used to analyze cultures. You will explore world cultures, with an emphasis on the analysis of religious and spiritual beliefs, art forms, and philosophy. You will study the contributions and influence of a range of cultural groups and will critically analyze issues facing ethnocultural groups around the world. You will also develop and apply research skills and design and implement a social action initiative relating to cultural diversity. |                                                                                               |

| 學習目標：   | Introduction to Sociology will be based upon Internet Research, course readings, contemporary movies, and looking at current events using the "sociological imagination." There will be discussions about assignments and current news events as evidence of social patterns and social change. |                                                                                                                                                                                                                                                                                                                                                                       |

|         |                                                                                                                                                                                                                                                                                                 | 內容綱要                                                                                                                                                                                                                                                                                                                                                                  |
|         |                                                                                                                                                                                                                                                                                                 | In this unit students are introduced to the basic vocabulary, concepts, and theoretical perspectives of Sociology. They become familiar with the functionalist, interactionist, and conflict perspectives and the different ways that each view social trends and problems.                                                                                           |
|         |                                                                                                                                                                                                                                                                                                 | The influence of society in inspiring patterns of human behavior, and creating standards for normal and consequences of violating expected behavior is discussed and then applied to analysis of criminal behavior and mental illness as examples of deviance. Students critically examine the agents of social control, family, law, jails, and mental institutions. |
|         |                                                                                                                                                                                                                                                                                                 | Students watch a movie in class and note down observations and questions during class. Possible movie selections: "The Breakfast Club", "One flew Over the Cuckoo's Nest," and "Girl Interrupted."                                                                                                                                                                    |
|         |                                                                                                                                                                                                                                                                                                 | Students share and discuss observations and questions based on the movie watched.                                                                                                                                                                                                                                                                                     |
|         |                                                                                                                                                                                                                                                                                                 | In this unit students discuss and analyze differences in wealth, power, and prestige by gender, race, ethnicity, and ability/disability. Minority groups are examined. Students will grow to understand both the social roots of discrimination, and the perpetuation of disadvantage by group.                                                                       |
|         |                                                                                                                                                                                                                                                                                                 | The growing gap between the rich and the poor, and the implications of poverty will be examined. This unit is designed to help students develop empathy for the disadvantaged and understand the differences between                                                                                                                                                  |

|       |                                               |                                                                                                                                                                                                                                                                                                                      |

|       |                                               | n "blaming the victim" and "blaming the system."                                                                                                                                                                                                                                                                     |
| 七     | Unit II. Social Inequality and Discrimination | Students watch a movie in class and note down observations and questions during class. Possible movie selections: "Boyz n' the Hood", "The Outsiders", "There are No Children Here," "Higher Learning."                                                                                                              |
| 八     | Unit II. Social Inequality and Discrimination | Students share and discuss observations and questions based on the movie watched. During this unit students will choose and begin working on a research presentation about an issue of interest to them.                                                                                                             |
| 九     | Unit III. Social Institutions.                | Students will examine trends in the family, education, government, religion, medicine, and the media.                                                                                                                                                                                                                |
| 十     | Unit III. Social Institutions.                | Student presentations will be the emphasis with topics like: What does it mean to be homeless? Do women face a glass ceiling in the workplace? What are the implications of the rising divorce rate? What are the responsibilities of unwed fathers? How does Taiwan's health care system compare to other nations'? |
| 十一    | Unit III. Social Institutions.                | Student-led presentations and discussions, which will provide practice in using the "sociological imagination", plus basic research and presentation skills.                                                                                                                                                         |
| 十二    | Unit III. Social Institutions.                | Students will begin designing a survey that each can administer with the results compiled and analyzed in Unit IV.                                                                                                                                                                                                   |
| 十三    | Unit IV. The Craft of Sociology.              | In this unit students will learn about the four basic methods of sociological research: observation, survey, document analysis, and experimentation. The concepts of survey reliability, validity, and correlation will be explained, along with basic statistics such as mean, mode, and median.                    |
| 十四    | Unit IV. The Craft of Sociology.              | The class will develop, administer and analyze the findings of a survey related to school and/or community issues.                                                                                                                                                                                                   |
| 十五    | Unit IV. The Craft of Sociology.              | The class will present and discuss the findings of their survey.                                                                                                                                                                                                                                                     |
| 十六    | Wrap-up and reflections                       | The class will discuss and reflect on what they have learned throughout the semester and how the course has changed the way they view current events and social change.                                                                                                                                              |
| 十七    |                                               |                                                                                                                                                                                                                                                                                                                      |
| 十八    |                                               |                                                                                                                                                                                                                                                                                                                      |
| 十九    |                                               |                                                                                                                                                                                                                                                                                                                      |
| 二十    |                                               |                                                                                                                                                                                                                                                                                                                      |

| 學生圖像：   | 1.知識堅實：知識運用、科技整合、思辨統整、文化美學、閱讀理解。， 2.能力顯著：自主學習、數位科技、自我超越、問題解決、外語應用。， 3.個性完善：愛心熱誠、誠信正直、自律自省。， 4.群性鮮明：接納同理、社會公民、團體合作、文化洞察、方案執行、國際理解。，                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |                                                            |                                                         |
| 學習目標：   | This course focuses on the use of social science theories, perspectives, and methodologies to investigate and explain shifts in knowledge, attitudes, beliefs, and behavior and their impact on society. Students will critically analyze how and why cultural, social, and behavioral patterns change over time. They will explore the ideas of social theorists and use those ideas to analyze causes of and responses to challenges such as technological change, deviance, and global inequalities. Students will explore ways in which social science research methods can be used to study social change. |                                                            |                                                         |

| 學生圖像：   | 1.知識堅實：知識運用、科技整合、思辨統整、文化美學、閱讀理解。， 2.能力顯著：自主學習、數位科技、自我超越、問題解決、外語應用。， 4.群性鮮明：接納同理、社會公民、團體合作、文化洞察、方案執行、國際理解。，                                                                                                                                                                                                                                                                      |                                                 |                                                                                                                                                                                                                                                                                                    |
| 學習目標：   | This course is for students with a special interest in literature and literary criticism. The course may focus on themes, genres, time periods, or countries. You will analyze a range of forms and stylistic elements of literary texts and respond personally, critically, and creatively to them. You will also assess critical interpretations and write analytical essays. |                                                 |                                                                                                                                                                                                                                                                                                    |

| 學生圖像：       | 1.知識堅實：知識運用、科技整合、思辨統整、文化美學、閱讀理解。 , 2.能力顯著：自主學習、數位科技、自我超越、問題解決、外語應用。 , 3.個性完善：愛心熱誠、誠信正直、自律自省。 , 4.群性鮮明：接納同理、社會公民、團體合作、文化洞察、方案執行、國際理解。 ,                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                            |
| 學習目標：       | This course emphasizes knowledge and skills related to the craft of writing. Students will analyze models of effective writing; use a workshop approach to produce a range of works; identify and use techniques required for specialized forms of writing; and identify effective ways to improve the quality of their writing. They will also complete a major paper as part of a creative or analytical independent study project and investigate opportunities for publication and for writing careers. |                                                                                                                                                                                                                            |

| 學生圖像：   | 1.知識堅實：知識運用、科技整合、思辨統整、文化美學、閱讀理解。，2.能力顯著：自主學習、數位科技、自我超越、問題解決、外語應用。，3.個性完善：愛心熱誠、誠信正直、自律自省。，4.群性鮮明：接納同理、社會公民、團體合作、文化洞察、方案執行、國際理解。，                                                                                                                                                                                                                                                                                                       |                            |
| 學習目標：   | This course emphasizes practical writing and communication skills that are needed in the world of business and technology. You will analyze the characteristics of effective models of business and technical communications; gather information to write reports, business letters, memos, manuals, instructions, and brochures; and integrate graphics and text, using technology appropriately for formatting and special effects. |                            |

| 學生圖像：   | 1.知識堅實：知識運用、科技整合、思辨統整、文化美學、閱讀理解。，2.能力顯著：自主學習、數位科技、自我超越、問題解決、外語應用。，3.個性完善：愛心熱誠、誠信正直、自律自省。，4.群性鮮明：接納同理、社會公民、團體合作、文化洞察、方案執行、國際理解。，                                                                                                                                                                                                                               |                          |
| 學習目標：   | Global Issues embraces a multidisciplinary approach in understanding the increasingly complex questions confronting the world today. Understanding global problems is the initial stage towards conceiving globalized solutions. This course capitalizes and centers on the privileged position of the youth in their ability to passion a better generation. |                          |

| 學習目標：   | Economics is the study of how individuals, groups, and countries deal with the problem of limited resources and unlimited wants and needs. This course helps students gain a deeper understanding of important concepts such as tradeoffs, opportunity cost, supply and demand, saving and investing, production and consumption, fiscal and monetary policy, inflation and unemployment, and trade policy. Upon successful completion of the course students should be better able to assess the economic policy decisions that affect them, their community and their country. |                                                                                                                                                                                                                |

| 學生圖像：       | 1.知識堅實：知識運用、科技整合、思辨統整、文化美學、閱讀理解。，2.能力顯著：自主學習、數位科技、自我超越、問題解決、外語應用。，3.個性完善：愛心熱誠、誠信正直、自律自省。，4.群性鮮明：接納同理、社會公民、團體合作、文化洞察、方案執行、國際理解。，                                                                                                                         |        |                                                                                                                                                                                                     |
| 學習目標：       | Lessons will lead students through the writing process from brainstorming to prewriting to drafting and then publishing. Students will learn language and syntax techniques to write effectively to achieve a specific purpose for a specific audience. |        |                                                                                                                                                                                                     |

## 拾、彈性學習時間實施規劃

### 一、學生自主學習實施規範

[381306 私立靜心高中自主學習實施規範\(PDF格式\)](#)

#### 臺北市私立靜心高級中學彈性學習時間及自主學習實施補充規定

107 年 10 月 24 日課發會通過

111 年 1 月 20 日課發會通過

一、 本校為落實彈性學習時間學生自主學習之實施，依據教育部 103 年 11 月 28 日臺教授國部字第 1030135678A 號發布之十二年國民基本教育課程綱要總綱(以下簡稱總綱)與十二年國民基本教育課程綱要高級中等學校課程規劃及實施要點(以下簡稱要點)相關規定，特訂定補充規定(以下簡稱本規定)。

二、 本校彈性學習時間學生自主學習之實施，以落實總綱「自發」、「互動」、「共好」之核心理念，並協助提升學生自主學習能力，鼓勵學生自發規劃學習內容為目的。並以發展學校特色和銜接學生進路為主軸，綜合考量學校發展、學生需求，周延規劃課程內容並妥適安排師資。

三、 本校彈性學習時間課程內涵

| 課程內涵       | 高一上      | 高一下      | 高二上      | 高二下      | 高三上      | 高三下      | 合計   |
|------------|----------|----------|----------|----------|----------|----------|------|
| 自主學習       | 2 節*9 週  | 2 節*9 週  | 2 節*9 週  | 2 節*9 週  |          |          | 72 節 |
| 充實課程-專題小論文 | 1 節*18 週 | 1 節*18 週 | 1 節*18 週 | 1 節*18 週 |          |          | 72 節 |
| 充實課程-生涯大師  |          |          |          |          | 2 節*18 週 | 2 節*16 週 | 68 節 |
| 校隊培訓       |          |          | 2 節*6 週  | 2 節*6 週  |          |          | 48 節 |
| 學校特色活動     |          |          | 6 節      | 6 節      |          |          | 24 節 |

四、 本校彈性學習時間學生自主學習之規劃原則如下：

- 〈一〉 學生自主學習之實施時段，應於本校彈性學習時間所定每週實施節次內為之
- 〈二〉 學生申請自主學習，應依附件一完成自主學習申請表，並得自行徵詢邀請指導教師指導，或由班級為單位提出申請，經教務處彙整後，依其自主學習之主題與性質，指派校內具相關專長之專任或代理教師，擔任指導教師。
- 〈三〉 學生申請自主學習者，應系統規劃學習主題、內容、進度、目標及方式，依附件二完成自主學習計畫書，並經指導教師指導及其父母或監護人同意。
- 〈四〉 學生應將經父母或監護人同意後之自主學習計畫書，送交指導教師簽署後，依教務處規定之時程及程序，完成自主學習申請。
- 〈五〉 學生自主學習之實施地點以本校校內為原則。
- 〈六〉 學生完成自主學習申請後，應依自主學習計畫書之規劃實施；學生因故須變更自主學習計畫書，應於二週前與指導教師討論並完成自主學習計畫變更申請後為之；但學生因參與彈性學習時間之選手培訓或參加彈性學習時間之補強性教學活動者，經與指導教師討論後，得以公假登記並直接登載於自主學習計畫書即可。

五、 本校自主學習的實施原則、輔導管理和學習計畫之實施相關補充規定如下：

〈一〉 實施原則：

1. 鼓勵學生自主規劃；
2. 提升自主學習能力；
3. 落實自主學習精神。
4. 每學年申請一次。

〈二〉 輔導管理：

1. 學生得於高一、高二彈性學習時間，規劃進行自主學習，並得採個人或小組方式，進行專題(書)、議題或創新實作，且應安排進行成果報告或展示。
2. 學生進行自主學習前，應經指導老師和討論後，填具申請表經家長(法定代理人)同意後實施。

〈三〉 學生自主學習的學習計畫應包括擬自主學習的主題、內容、進度、方式及所需資源或設備等；學生自主學習規畫表如附件二。

〈四〉 學校應提供適合和必要的學習資源，如：資訊設備、圖書和使用空間等；同時，為能落實 學生自主學習成效，得安排老師隨班或組進行指導。

六、 學生於各學期結束前，應將自主學習申請書、自主學習計畫書、指導紀錄表及自主學習成果紀錄表彙整成冊；指導教師得就學生自主學習成果發表之內容、自主學習成果彙編之完成度、學生自主學習目標之達成度或實施自主學習過程之參與度，經綜合評估後，表現優良者得依本校學生獎懲實施規定予以嘉獎。

七、 本補充規定經課程發展委員會討論通過，陳校長核定後實施，並納入本校課程計畫。

附件一

| 全學期授課 | 充實/增廣       | 生涯大師  |      |    |    |      |    |    |      |    |    |      |    |    | 4    | 2  | 18 | 4    | 2  | 16 | 依班群學生需求開設,協助學生大學院系探索、國內外升學輔導、職業環境與學群瞭解等,以配合自身優勢能力、生涯興趣及工作價值觀,建構生涯藍圖。 |  |
|       | 充實/增廣       | 專題小論文 | 10   | 1  | 18 | 10   | 1  | 18 | 10   | 1  | 18 | 10   | 1  | 18 |      |    |    |      |    |    | 學生自主選擇與未來學群相關研究專題,進行小論文的報告撰寫與發表,培育具備主體學習、深入探究、思考判斷、多元開展的學生。          |  |

三、學校特色活動

| 活動名稱   | 辦理方式           | 第一學年 |   | 第二學年 |   | 第三學年 |   | 小時 | 預期效益及其他相關規定 |
|--------|----------------|------|---|------|---|------|---|----|-------------|
|        |                | 一    | 二 | 一    | 二 | 一    | 二 |    |             |
| 校慶展演活動 | 動態展演           |      |   | 3    |   |      |   | 3  |             |
| 跨境學習   | 國內外學校或單位交流參訪學習 |      |   | 3    | 3 |      |   | 6  |             |
| 學習博覽會  | 學習成果動態與靜態展     |      |   |      | 3 |      |   | 3  |             |

## 拾壹、選課規劃與輔導

### 一、選課流程規劃【含高一、高二及高三選課(組)流程】

#### (一) 流程圖

[381306 私立靜心高中流程圖\(PDF格式\)](#)

## (二) 日程表

| 序 | 時間                        | 活動內容   | 說明                                                                            |
|---|---------------------------|--------|-------------------------------------------------------------------------------|
| 1 | 114/06/                   | 選課宣導   | 舊生利用前一學期末進行選課宣導                                                               |
| 2 | 114/08                    | 選課宣導   | 利用新生報到時段進行選課宣導                                                                |
| 3 | 一學期：114/08<br>第二學期：114/01 | 學生進行選課 | 1. 進行分組選課<br>2. 以電腦選課方式進行<br>3. 規劃1.2~1.5倍選修課程<br>4. 相關選課流程參閱流程圖<br>5. 選課諮詢輔導 |
| 4 | 一學期：114/08<br>第二學期：115/02 | 正式上課   | 跑班上課                                                                          |
| 5 | 一學期：114/09<br>第二學期：115/02 | 加、退選   | 得於學期前兩週進行                                                                     |
| 6 | 115/06                    | 檢討     | 課發會進行選課檢討                                                                     |

## 二、選課輔導措施

(一)發展選課輔導手冊：請查看學校網頁公告。

(二)生涯探索：

選課選組是一連串探索和資料整理，需要做好事前充分的準備，才能順利的做出正確的抉擇。本校透過生涯金三角蘊涵三個向度的探索來作為選組的參考依據：「自我認識」、「社會與環境因素」及「教育與職業資料」來進行探索，彼此關聯，缺一不可。

1. 自我認識：思考自己擅長的能力是什麼？我的興趣在那裡？什麼是自己重視的生活價值？自己想達成的人生目標是什麼？可利用測驗結果了解自己的性向與能力、興趣與個性，並在自我探索歷程中了解自己的志向、價值觀，作為選課選組之參考依據。
2. 社會與環境因素：了解社會發展的趨勢，家人、父母的期望，在生涯發展中有何助力或阻力的因素。

(三)教育與職業資料：認識高中課程學科資料、了解大學學群、科系及多元入學方案，認識工作世界等。可以透過各大學校系或大考中心網站、實地去校園參觀訪問、請教學長姐、或到輔導中心查閱書面簡介等，清楚的知道哪些校系可以提供自己選擇。

上述第一項是『知己』，後兩項是『知彼』；唯有知己知彼，雙重的思考才能周延！關於知彼，可從大方向來思考，是關於時代趨勢、社會變遷走向以及產業或職業前景；另外還需考慮家庭本身擁有的資源與父母長輩的態度，整合兩大環境因素，再搭配個人興趣、能力、特質等條件，將有助於幫助學生更縝密的思考、選擇自己的生涯路。

(三)興趣量表：

本校為協助學生進行完整之自我探索，除實施大學興趣量表(電腦化生涯興趣測驗)外，同時提供學業系列性向測驗(適性化生涯性向測驗)及學系探索量表資訊，讓學生更能深入進行評估參考。

1. 興趣量表(電腦化生涯興趣測驗)是一份讓高中以上學生了解自己的興趣特質，功能包括高中高職生的選課選組或選填志願，一般大學與科技大學的轉系以及選擇研究所的生涯規劃參考工具。
2. 性向測驗(適性化生涯性向測驗)一幫助學生了解自己在各項潛在能力之高低程度，最理想的結果當然是性向測驗的結果與興趣測驗的結果一致，這樣表示同學的潛在能力和興趣一致，同學可以很清楚知道自已的方向，在選課選組的時候困擾比較少，將來學習上也比較少遇到挫折。
3. 學系探索量表一幫助同學瞭解自己對大學各學系學習興趣而編製的，它將幫助學生找到適合自己的「系群」以及「學系」。
4. 同學在做抉擇時，要多考慮自己的價值觀及個性，同時也需要考慮到社會及市場的需求，多方參照，才能做出最好的選擇。

(四)課程諮詢教師：

1. 學生適性選修輔導將搭配課程諮詢及生涯輔導：有關課程諮詢部分由課程諮詢教師辦理，有關生涯輔導部分，由專任輔導教師或導師協同辦理。
2. 本校每學期選課前，由召集人、課程諮詢教師及相關處室，針對教師、家長及學生辦理選課說明會，介紹學校課程地圖、課程內容及課程與未來進路發展之關聯，並說明大學升學進路。
3. 選課說明會辦理完畢後，針對不同情況及需求之學生，提供課程諮詢或生涯輔導；說明如下：
  - (1) 生涯定向者：提供必要之課程諮詢。
  - (2) 生涯未定向：家長期待與學生興趣有落差、學生能力與興趣有落差或二年級（三年級）學生擬調整原規劃發展之進路者：
    - ①先由導師進行瞭解及輔導，必要時，進一步與家長聯繫溝通。
    - ②導師視學生需求向輔導中心申請輔導，由專任輔導教師依學生性向、興趣測驗結果，進行生涯輔導。
    - ③經導師瞭解輔導或專任輔導教師生涯輔導後，續由課程諮詢教師，提供其個別之課程諮詢。
4. 課程諮詢教師每學期按時於學生學習歷程檔案，登載課程諮詢紀錄。

(五)其他：

## 拾貳、學校課程評鑑

### 一、學校課程評鑑計畫

[381306 私立靜心高中課程評鑑計畫\(PDF格式\)](#)

## 臺北市私立靜心高級中學 114 學年度 高中部 學校層級課程評鑑實施計畫

108.12.5 課發會通過

### 一、依據：

- 〈一〉十二年國民基本教育課程綱要及本校課程發展委員會工作計畫。
- 〈二〉108 年 5 月 30 日臺教授國部字第 1080050523B 號令「高級中等學校課程評鑑實施要點」。
- 〈三〉高級中等學校課程評鑑機制辦理參考原則。

### 二、目的：

- 〈一〉以系統化科學化方法蒐集課程相關資料，並據以判斷課程品質與價值，檢視「學校課程」實施的成效，作為課程改進或課程決定之依據。
- 〈二〉運用課程評鑑，檢視並調整學校課程發展方向與績效，並作為擬定新學年度學校總課程計畫之依據。
- 〈三〉透過課程評鑑，讓教師了解課程設計與實施現況，與學生學習成效，落實教師自我檢視與省思，增進教師自我覺察與專業成長，提升教學品質。

### 三、評鑑範圍：

- 〈一〉課程發展組織運作
- 〈二〉課程發展
- 〈三〉總體課程評鑑
- 〈四〉領域課程實施成效
- 〈五〉單一類型課程評鑑
- 〈六〉教師自評：包含「教師教學」及「議題融入課程」二部分
- 〈七〉學生回饋：由學生問卷與學生學習成果進行反思與課程調整。

### 四、評鑑方式

| 評鑑項目     | 評鑑規準                | 評鑑規準與工具           | 填表人               | 評鑑時間     |
|----------|---------------------|-------------------|-------------------|----------|
| 課程發展組織運作 | 1.課發會組織要點合法化        | 表 1：課程發展組織與運作檢核表  | 教務處填寫             | 每年 5-6 月 |
|          | 2.課程組織結構完整          |                   |                   |          |
|          | 3.發揮課程核心工作小組功能      |                   |                   |          |
|          | 4.落實課發會功能           |                   |                   |          |
|          | 5.課程計畫提經課發會審議       |                   |                   |          |
| 課程發展     | 課程總體計畫內容符合 108 課綱規範 | 表 2：課程發展檢核表       | 教務處填寫             | 每年 5 月   |
| 領域課程實施成效 | 一、課前準備              | 表 3：領域課程實施成效檢核表   | 表 3：每一領域共同完成 1 份  | 每年 5-6 月 |
|          | 二、有效的課程與教學          | 表 5：議題融入課程教師自我檢核表 | 表 5：每位教師填寫        | 每年 5-6 月 |
|          | 三、互動的課程管理機制         | 表 8：單一類型課程評鑑表     | 表 8：校訂必須及多元選修開課教師 | 每年 5-6 月 |
|          | 四、教科用書選編            |                   |                   |          |
|          | 五、適切的評量             |                   |                   |          |
|          | 六、教學成效              |                   |                   |          |
|          | 七、單一類型課程評鑑(高中)      |                   |                   |          |
|          | 八、議題融入教學            |                   |                   |          |

|            |              |                                                   |                     |                 |
|------------|--------------|---------------------------------------------------|---------------------|-----------------|
| 整體成效<br>評估 | 1.了解教師教學成效   | 表4：教師教學自我檢核表<br>表7：總體課程評鑑表                        | 表4：每位教師填寫<br>表7：教務處 | 每年5-6月          |
|            | 2.檢核全體學生學習表現 | 1.定考及模擬考成績分析<br>2.表6：學生學習回饋單                      | 表6：該課程有修課的學生填寫      | 每次評量後<br>每年5、1月 |
|            | 3.檢核學校辦學成效   | 學校日家長辦學滿意度調查表                                     | 家長                  | 每年8、2月學校日       |
|            | 4.運用課程評鑑結果   | 1.彙整各項評鑑工具統計分析於期末課發會報告。<br>2.作為擬定次學年度學校總體課程計畫之依據。 |                     | 每年7-8月          |

## 五、評鑑時程

本校課程評鑑時程由當年8月開始至翌年7月為止共1年，各事項執行期程如以下甘特圖所列之期程。

| 實施月份                   | 8 | 9 | 10 | 11 | 12 | 1 | 2 | 3 | 4 | 5 | 6 | 7 |
|------------------------|---|---|----|----|----|---|---|---|---|---|---|---|
| 擬定學校課程評鑑計畫             |   |   |    |    |    |   |   |   |   |   |   |   |
| 評鑑小組執行評鑑               |   |   |    |    |    |   |   |   |   |   |   |   |
| 教師自我檢核課程實施狀況           |   |   |    |    |    |   |   |   |   |   |   |   |
| 填寫教師教學自我檢核表            |   |   |    |    |    |   |   |   |   |   |   |   |
| 填寫學生回饋表                |   |   |    |    |    |   |   |   |   |   |   |   |
| 各科教學研究會彙集回饋意見並進行課程自我檢核 |   |   |    |    |    |   |   |   |   |   |   |   |
| 單一課程評鑑                 |   |   |    |    |    |   |   |   |   |   |   |   |
| 議題融入課程教師自我檢核           |   |   |    |    |    |   |   |   |   |   |   |   |
| 總體課程評鑑                 |   |   |    |    |    |   |   |   |   |   |   |   |
| 學校日家長辦學滿意度調查表          |   |   |    |    |    |   |   |   |   |   |   |   |
| 課程發展組織運作檢核             |   |   |    |    |    |   |   |   |   |   |   |   |
| 完成課程評鑑結果報告             |   |   |    |    |    |   |   |   |   |   |   |   |
| 執行改進實施方案<br>修正學校課程計畫   |   |   |    |    |    |   |   |   |   |   |   |   |

## 六、評鑑人員及方式：

(一)、成立評鑑小組：校長擔任召集人，由校內課程發展委員會委員兼任評鑑小組委員。

(二)、評鑑方式：

1.質性描述：除評鑑工具回饋之外，並根據學校日、課發會、教學研究會、行政會議親師生意見內容彙整分析。

2.量化結果：運用評鑑工具表1-表8了解課程實施是否達到預期的教學目標。

## 七、評鑑實施

評鑑的實施由課程評鑑小組依附件課程評鑑表及相關表件內容所列之項目進行評鑑，並提出改進實施方案。

#### 八、評鑑流程

#### 九、效益評估：

評鑑結果包含量化結果與質性描述，相關資料提供課發會委員、行政人員及各領域教師，作為課程改進的參考，修正校務運作模式，以增進教師專業知能，強化教學品質，提昇學生學習成效，促進校務發展。

十、本計畫所需經費由學校相關經費項下支付。

十一、本計畫經課程發展委員會研議通過，陳 校長核可後實施。

(表 1)臺北市私立靜心高級中學(高中部)114 學年度課發會組織運作檢核表

| 檢核項目                                                                       | 是否符合                                                  |
|----------------------------------------------------------------------------|-------------------------------------------------------|
| 1. 訂定「課程發展委員會組織要點」，經學校校務會議通過。                                              | <input type="checkbox"/> 是 <input type="checkbox"/> 否 |
| 2. 學校課程發展委員會下設各領域/群科/學程/科目教學研究會。                                           | <input type="checkbox"/> 是 <input type="checkbox"/> 否 |
| 3. 學校課程發展委員會之組成及運作方式由學校校務會議決定之。                                            | <input type="checkbox"/> 是 <input type="checkbox"/> 否 |
| 4. 課程發展委員會成員包括學校行政人員、年級及領域/群科/學程/科目（含特殊需求領域課程）之教師、教師組織代表及學生家長委員會代表及專家學者代表。 | <input type="checkbox"/> 是 <input type="checkbox"/> 否 |
| 5. 成立課程核心工作小組，規劃學校教育願景及學校總體課程。                                             | <input type="checkbox"/> 是 <input type="checkbox"/> 否 |
| 6. 學校校訂課程符合學校教育願景，經課發會審議通過。                                                | <input type="checkbox"/> 是 <input type="checkbox"/> 否 |
| 7. 學校課程計畫經課發會審議通過。                                                         | <input type="checkbox"/> 是 <input type="checkbox"/> 否 |
| 8. 課發會訂定課程評鑑計畫，進行課程評鑑。                                                     | <input type="checkbox"/> 是 <input type="checkbox"/> 否 |
| 9. 學校課程計畫經課程發展委員會三分之二以上委員出席，二分之一以上出席委員通過，並陳報各該主管機關。                        | <input type="checkbox"/> 是 <input type="checkbox"/> 否 |

〈表2〉 臺北市私立靜心高級中學(高中部)114學年度課程發展檢核表

| 檢核項目                                                                                      | 是否符合                                                  |
|-------------------------------------------------------------------------------------------|-------------------------------------------------------|
| 1. 學校課程除各領域課程外，另包含不同領域/群科/學程/科目間的統整課程。                                                    | <input type="checkbox"/> 是 <input type="checkbox"/> 否 |
| 2. 課程設計適切融入性別平等、人權、環境、海洋、品德、生命、法治、科技、資訊、能源、安全、防災、家庭教育、生涯規劃、多元文化、閱讀素養、戶外教育、國際教育、原住民族教育等議題。 | <input type="checkbox"/> 是 <input type="checkbox"/> 否 |
| 3. 因應特殊類型教育學生之個別需要，提供支持性輔助、特殊需求領域課程及實施課程調整。                                               | <input type="checkbox"/> 是 <input type="checkbox"/> 否 |
| 4. 特殊教育學生的課程依據特殊教育法所規範的個別化教育計畫或個別輔導計畫適性設計。                                                | <input type="checkbox"/> 是 <input type="checkbox"/> 否 |
| 5. 學校課程計畫至少包含總體架構、彈性學習時間及校訂課程規劃（含特色課程）、各領域/ 群科/學程/科目之教學重點、評量方式及進度等。                       | <input type="checkbox"/> 是 <input type="checkbox"/> 否 |
| 5.1 高一及高二每學期部定必修科目之開設在十二科以下。                                                              | <input type="checkbox"/> 是 <input type="checkbox"/> 否 |
| 5.2 校訂必修學分數達4~8學分。                                                                        | <input type="checkbox"/> 是 <input type="checkbox"/> 否 |
| 5.3 依學生興趣、性向、能力與需求開設至少6學分多元選修課程供學生選修。                                                     | <input type="checkbox"/> 是 <input type="checkbox"/> 否 |
| 5.4 提供學生跨班自由選修課程，開設之選修總學分數，達學生應修習選修學分數之1.2-1.5 倍。                                         | <input type="checkbox"/> 是 <input type="checkbox"/> 否 |
| 5.5 彈性學習時間按規定安排「學生自主學習」時間，3學年至少18節。                                                       | <input type="checkbox"/> 是 <input type="checkbox"/> 否 |
| 6. 學校課程計畫通過後，於開學前陳報各該主管機關備查，並運用書面或網站等多元管道向學生與家長說明。                                        | <input type="checkbox"/> 是 <input type="checkbox"/> 否 |
| 7. 學校於該年度新生入學半年前完成課程計畫備查與公告說明，以利於學生選校參考。                                                  | <input type="checkbox"/> 是 <input type="checkbox"/> 否 |

(表3) 臺北市私立靜心高級中學(中學部)114 學年度領域課程實施成效檢核表

填表日期： 年 月 日

| 項目規準           | 細目                                   | 辦理情形 |    |    |     |    |
|----------------|--------------------------------------|------|----|----|-----|----|
|                |                                      | 優良   | 良好 | 尚可 | 待改進 | 說明 |
| (一) 課程實施前準備充分  | 1. 能對教師及家長溝通和宣導的情形                   |      |    |    |     |    |
|                | 2. 充分瞭解學生先備經驗                        |      |    |    |     |    |
|                | 3. 完善的教學計畫與進度規劃                      |      |    |    |     |    |
|                | 4. 妥善準備課程實施所需教材與設施                   |      |    |    |     |    |
|                | 5. 參與或辦理提升教學效能相關的專業成長活動              |      |    |    |     |    |
|                | 6. 落實寒暑假及學期中共同備課、觀課與議課               |      |    |    |     |    |
| (二) 有效的課程與教學   | 1. 能依據課程目標與課程內容特質，擬訂適當的教學設計與策略       |      |    |    |     |    |
|                | 2. 能將擬定的適當教學策略具體實踐於教學現場              |      |    |    |     |    |
|                | 3. 能省思學生學習效果，適時適切調整教學策略              |      |    |    |     |    |
|                | 4. 落實實施多元評量                          |      |    |    |     |    |
|                | 5. 課程實施能顧及學生個別差異、安排教學情境、有效運用各項教學資源等。 |      |    |    |     |    |
|                | 6. 教學活動運用學校及社區資源                     |      |    |    |     |    |
|                | 7. 教學活動達成學校願景與教學目標                   |      |    |    |     |    |
|                | 8. 對課程實施情形的反省與改進情形                   |      |    |    |     |    |
| (三) 互動性的課程管理機制 | 1. 教師團隊能共同備課、觀課及議課，營造專業對話分享討論的文化。    |      |    |    |     |    |
|                | 2. 教師團隊能不斷教學省思，修正課程與教學，以提高學生學習品質與成效。 |      |    |    |     |    |
|                | 3. 對於課程實施過程中所遭遇的問題與困難，能尋求解決或相關人員的支持。 |      |    |    |     |    |
| (四) 教科書評選      | 1. 依據學校訂定的教科用書評選辦法，選用教材，並能敘明選擇的理由。   |      |    |    |     |    |
|                | 2. 各學科或學習領域能發展或討論自編教材，落實學校本位課程。      |      |    |    |     |    |
|                | 3. 學校使用之自編自選教材於課程發展委員會中討論審查。         |      |    |    |     |    |
| (五) 適切的教學評量    | 1. 能掌握課程目標與內容特質，選擇或發展適切的學習成效評量工具和方法。 |      |    |    |     |    |
|                | 2. 評量內涵與課程目標與內容具一致性關聯                |      |    |    |     |    |
|                | 3. 評量方法多樣、適切，足以評量學生學習表現              |      |    |    |     |    |

|          |                                 |  |  |  |  |  |
|----------|---------------------------------|--|--|--|--|--|
|          | 4. 能分析評量結果，並據以改進教學及進行補救教學。      |  |  |  |  |  |
|          | 5. 能兼顧認知、情意與技能之評量，亦能兼顧形成性與總結性評量 |  |  |  |  |  |
|          | 6. 落實定期評量試題審題與雙向細目分析            |  |  |  |  |  |
| (六) 教學成效 | 1. 學生能力指標(含教學目標)的達成程度。          |  |  |  |  |  |
|          | 2. 學生上課表現積極主動參與情形。              |  |  |  |  |  |

一. 本學年課程實施成效檢核表

| 項目   | 頗具成效、學校特色，可持續保持，提供其他學校參考之事項 | 遭遇困難與待改進事項 |

| 回饋項目                                                         | 非常同意 | 同意 | 尚可 | 不同意 | 非常不同意 |
|--------------------------------------------------------------|------|----|----|-----|-------|
| <b>教師教學模式與策略</b>                                             |      |    |    |     |       |
| 1. 教學活動多元而適性，提供學生學習、觀察、探索、提問、反思、討論、創作與問題解決的機會，增強學習的理解、連貫和運用。 |      |    |    |     |       |
| 2. 依據學生多方面的差異，規劃適性分組、採用多元教學模式，不偏重教師單向講述式。                    |      |    |    |     |       |
| 3. 依學生不同需求提供符合的學習材料與評量方式等。                                   |      |    |    |     |       |
| 4. 指派之作業多元、適性與適量，學生可勝任。                                      |      |    |    |     |       |
| <b>班級氣氛</b>                                                  |      |    |    |     |       |
| 5. 班級氣氛正向融洽。                                                 |      |    |    |     |       |
| 6. 師生互動良好，學生樂於發表。                                            |      |    |    |     |       |
| 7. 同學互動良好，能彼此合作學習。                                           |      |    |    |     |       |
| <b>學習能力(核心素養)提升</b>                                          |      |    |    |     |       |
| 8. 課程幫助我全面思考、分析與探索的能力。                                       |      |    |    |     |       |
| 9. 課程幫助我規劃、實踐與檢討反省的能力。                                       |      |    |    |     |       |
| 10. 課程幫助我更精確掌握文字或符號表達的能力。                                    |      |    |    |     |       |
| 11. 課程幫助我運用科技、資訊與媒體識讀的能力。                                    |      |    |    |     |       |
| 12. 課程幫助我提升藝術感受、欣賞、創作與鑑賞的能力。                                 |      |    |    |     |       |
| 13. 課程幫助我對道德課題與公共議題的思考、對話及參與能力。                              |      |    |    |     |       |
| 14. 課程幫助我包容人我差異、溝通協調及團隊合作的能力。                                |      |    |    |     |       |
| 15. 課程幫助我尊重欣賞多元文化，拓展國際化視野，具備國際移動的能力。                         |      |    |    |     |       |
| <b>其他回饋與建議</b>                                               |      |    |    |     |       |
|                                                              |      |    |    |     |       |

註：各科教學研究會可依科目特性及學校特色增刪學習能力(核心素養)檢核項目。

|        | 5.營造反思與對話的師生互動氛圍  |        |   |   |   |   |     |
| 多元文化   | 1.運用多元教學資源與教學方法   |        |   |   |   |   |     |
|        | 2.學習主題符合課綱或法令相關內涵 |        |   |   |   |   |     |
|        | 3.有效達成學習目標        |        |   |   |   |   |     |
|        | 4.提供情境脈絡促進學生學習    |        |   |   |   |   |     |
|        | 5.營造反思與對話的師生互動氛圍  |        |   |   |   |   |     |
| 閱讀素養   | 1.運用多元教學資源與教學方法   |        |   |   |   |   |     |
|        | 2.學習主題符合課綱或法令相關內涵 |        |   |   |   |   |     |
|        | 3.有效達成學習目標        |        |   |   |   |   |     |
|        | 4.提供情境脈絡促進學生學習    |        |   |   |   |   |     |
|        | 5.營造反思與對話的師生互動氛圍  |        |   |   |   |   |     |
| 戶外教育   | 1.運用多元教學資源與教學方法   |        |   |   |   |   |     |
|        | 2.學習主題符合課綱或法令相關內涵 |        |   |   |   |   |     |
|        | 3.有效達成學習目標        |        |   |   |   |   |     |
|        | 4.提供情境脈絡促進學生學習    |        |   |   |   |   |     |
|        | 5.營造反思與對話的師生互動氛圍  |        |   |   |   |   |     |
| 國際教育   | 1.運用多元教學資源與教學方法   |        |   |   |   |   |     |
|        | 2.學習主題符合課綱或法令相關內涵 |        |   |   |   |   |     |
|        | 3.有效達成學習目標        |        |   |   |   |   |     |
|        | 4.提供情境脈絡促進學生學習    |        |   |   |   |   |     |
|        | 5.營造反思與對話的師生互動氛圍  |        |   |   |   |   |     |
| 原住民族教育 | 1.運用多元教學資源與教學方法   |        |   |   |   |   |     |
|        | 2.學習主題符合課綱或法令相關內涵 |        |   |   |   |   |     |
|        | 3.有效達成學習目標        |        |   |   |   |   |     |
|        | 4.提供情境脈絡促進學生學習    |        |   |   |   |   |     |
|        | 5.營造反思與對話的師生互動氛圍  |        |   |   |   |   |     |

〈表7〉 臺北市私立靜心高級中學114學年度學校總體課程評鑑表

填表學校：臺北市私立靜心高中

填表時間：

| 向度                | 指標                                            | 校本檢視重點                                            | 校本發展程度                                            | 5<br>90%以上 | 4<br>80% | 3<br>70% | 2<br>60% | 1<br>60%以下 | 校本檢視重點<br>質性描述                                              | 工具證據<br>ex會議記錄、課<br>綱、學習評量表<br>等 |
|-------------------|-----------------------------------------------|---------------------------------------------------|---------------------------------------------------|------------|----------|----------|----------|------------|-------------------------------------------------------------|----------------------------------|
| 課程與<br>學校願<br>景關聯 | 1. 課程發展計畫符合總綱精神。                              | 1.1 學校總體課程發展計畫，能盤點、對應與開發新課程，以符合總綱精神。              | 總體課程發展計畫符合總綱精神的程度                                 |            |          |          |          |            | 說明：(1)課程架構學分總數符合課綱基本要求；(2)課程內容符合課綱三面九項核心素養、學習重點等。           |                                  |
|                   | 2. 課程發展計畫與學校願景具關連性。                           | 2.1 總體課程發展與學校願景具關連性。                              | 總體課程發展與學校願景關連程度                                   |            |          |          |          |            |                                                             |                                  |
| 課程發展組織與運作機制       | 3. 成立或健全課程發展組織。                               | 3.1 學校有能操作發揮實質功能的課程發展組織。                          | 學校課程發展組織充分發揮功能的程度                                 |            |          |          |          |            | 說明：如課發會、課發會下各工作小組（行政組、課程規劃組、評鑑組）各課程的共備社群領域或學科教學研究會或課程核心小組等。 |                                  |
|                   |                                               | 3.2 課程發展組織之成員能發揮課程領導與學科專業能力。                      | 課程發展組織成員能發揮課程領導與學科專業能力之程度                         |            |          |          |          |            |                                                             |                                  |
|                   | 4. 各課程發展組織之間、課程發展組織和行政單位之間，其運作機制及互動協調能發揮實質功效。 | 4.1 各課程發展組織具橫向聯繫。                                 | 課程發展組織能發揮協調功能之程度（如學科小組、共備社群、教務處課務組、與課程核心小組有跨系統協調） |            |          |          |          |            | 說明：學校具有跨課程小組或共備社群之間的對話機制或課務協調等且運作能發揮實質功效。                   |                                  |
|                   |                                               | 4.2 總體課程之發展能經各層級課程發展組織運作並依循行政程序確認。                | 落實各領域發展之課程能於校級課程發展組織中討論與確認的程度。                    |            |          |          |          |            | 說明：各領域發展之課程能於教學研究會、領域會議、課發會（或其他校級課程發展組織）中討論，並於校務會議確認。或困難說明  |                                  |
|                   |                                               | 4.3 學校行政單位能支援課程發展組織運作與執行。                         | 課程組織與行政單位之間的相互配合程度                                |            |          |          |          |            | 說明：依照各領域需求，呈報後學校行政能為課程組織提供場地、器材、經費等資源以研議課程，或提供教師社群增能活動或資源等。 |                                  |
|                   | 5. 完整記錄各層級課程發展組織之運作情形，以供後續改進參考。               | 5.1 學校各層級課程發展組織定期運作（如定期會議、講座、參訪、觀課等），並留存紀錄，供後續參考。 | 課程發展組織能定期運作且紀錄完整程度                                |            |          |          |          |            |                                                             |                                  |

|              |                                             |                                                  |                                                  |                                                                                                                                                                                                     |  |  |  |  |                                     |  |
|--------------|---------------------------------------------|--------------------------------------------------|--------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|--|--|-------------------------------------|--|
| 適性課程實施<br>內涵 | 6. 總體課程目標與個別課程計畫之目標及學習內容、學習活動、評量安排等，具邏輯一貫性。 | 6.1 各學習領域(含校訂必修及多元選修等)的課程規劃，能呼應總體課程目標。           | 各學習領域(含校訂必修及多元選修等)的課程規劃能呼應總體課程目標的程度              |                                                                                                                                                                                                     |  |  |  |  |                                     |  |
|              |                                             | 6.2 各學習領域(含校訂必修及多元選修等)之目標、學習內容、學習活動與評量安排等具邏輯一貫性。 | 各學習領域課程(含校訂必修及多元選修等)之目標、學習內容、學習活動與評量安排等具邏輯一貫性的程度 |                                                                                                                                                                                                     |  |  |  |  |                                     |  |
|              |                                             | 6.3 總體課程能考量各門課程內涵間的聯繫，及各年級縱向銜接與領域間橫向統整。          | 總體課程能考量各門課程內涵間的聯繫，及各年級縱向銜接與領域間橫向統整程度             |                                                                                                                                                                                                     |  |  |  |  |                                     |  |
|              | 7. 課程內容與教學模式，能以學生為主體，符合學生多元學習需求與適性發展。       | 7.1 總體課程能依據學生的背景分析進行規劃與實施。                       | 總體課程能依據學校與學生的背景分析進行規劃，達成的程度                      |                                                                                                                                                                                                     |  |  |  |  | 說明：課程規劃必須考量學生的學習程度、學習需要、性向、未來職涯發展等。 |  |
|              |                                             | 7.2 各學習領域(含校訂必修及多元選修等)能發展素養導向相關課程，並研發相關教材。       | 各學習領域(含校訂必修及多元選修等)能發展素養導向相關課程，並研發相關教材，完成的程度      |                                                                                                                                                                                                     |  |  |  |  |                                     |  |
|              |                                             | 7.3 製作學生選課手冊                                     | 選課手冊完成程度                                         |                                                                                                                                                                                                     |  |  |  |  |                                     |  |
|              | 8. 建立教材資源共享與永續的概念。                          | 8.1 學校能發展與建立共享的教材資源平台，以支持課程永續發展。                 | 線上共享的教材資源平台充分發揮功效程度                              |                                                                                                                                                                                                     |  |  |  |  | 說明：學校雲端分享平台及運用                      |  |
|              |                                             | 8.2 舉辦全校性或領域課程分享會邀請教師、家長與學生共享與發展                 | 舉辦全校性或領域課程分享會                                    | <input type="checkbox"/> 是<br><input type="checkbox"/> 否                                                                                                                                            |  |  |  |  |                                     |  |
| 系統課程評鑑與回饋    | 9. 進行課程評鑑規劃。                                | 9.1 召開相關會議形成課程評鑑共識以提出課程評鑑計畫書。                    | 課程評鑑規劃情形，勾選已完成之項目                                | <input type="checkbox"/> 課程評鑑組織<br><input type="checkbox"/> 課程評鑑時程<br><input type="checkbox"/> 課程評鑑項目<br><input type="checkbox"/> 課程評鑑計畫書<br><input type="checkbox"/> 其他(請說明於右)                     |  |  |  |  | 說明：課程評鑑規劃可包含形成課程評鑑小組、時程與項目等。        |  |
|              | 10. 建立課程發展回饋機制，管理多元的課程評鑑結果。                 | 10.1 學校能盤點並統整多元的課程評鑑結果，並建立回饋機制。                  | 建立有效的課程發展回饋機制情形                                  | <input type="checkbox"/> 已建置課程發展回饋機制，並在使用中<br><input type="checkbox"/> 課程發展回饋機制已建置，尚在調整中<br><input type="checkbox"/> 尚未建置課程發展回饋機制<br><input type="checkbox"/> 其他(請說明於右)                             |  |  |  |  |                                     |  |
|              | 11. 善用評鑑結果增進學習成效。                           | 11.1 學校能根據總綱精神、學校願景、課程目標，檢視總體課程實施成果，並根據回饋進行課程調整。 | 檢視總體課程實施成果，並根據回饋進行課程調整情形                         | <input type="checkbox"/> 本校已檢視課程實施成果，已根據回饋調整課程。<br><input type="checkbox"/> 本校已檢視課程實施成果，正根據回饋調整課程。<br><input type="checkbox"/> 本校已檢視課程實施成果，尚無課程調整之規劃。<br><input type="checkbox"/> 本校尚未完成學校課程實施成果檢視。 |  |  |  |  |                                     |  |

|  |  |                                     |                         |                                                                                                                                                                   |  |  |
|--|--|-------------------------------------|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|
|  |  | 11.2 學校能檢視評鑑結果,分析運用,並檢討總體課程與進行教學精進。 | 根據評鑑結果檢討總體課程,規劃具體教學精進措施 | <input type="checkbox"/> 已針對評鑑結果進行總體課程檢討會議<br><input type="checkbox"/> 已針對評鑑結果進行教學精進<br><input type="checkbox"/> 已規劃時程召開相關會議進行研議<br><input type="checkbox"/> 尚未進行 |  |  |

| 課程與總綱、學校願景關聯 | 課程發展計畫符合總綱(領綱)精神。                    | 1. 1 單一類型課程能根據總綱(領綱)素養精神進行設計。                 | 單一類型課程之設計符合總綱精神的程度         |                                                                                                                                           |          |          |          |                |                     |                          |
|              | 2. 課程發展計畫與學校願景具關連性。                  | 2. 1 單一類型課程能根據學校願景進行設計或連結學校特色。                | 單一類型課程發展依據學校願景設計與連結學校特色之程度 |                                                                                                                                           |          |          |          |                |                     |                          |
| 課程發展組織運作機制   | 3. 成立或健全課程發展組織。                      | 3. 1 能組織建立學校或跨校之課程共備社群(或課程設計小組)               | 是否建立課程共備社群：                | <input type="checkbox"/> 有跨領域共備社群<br><input type="checkbox"/> 有領域共備社群<br><input type="checkbox"/> 沒有共備社群，請於右欄說明原因                         |          |          |          |                |                     |                          |
|              | 4. 各課程發展組織之間、課程發展組織和行政單位之間，互動協調情形良好。 | 4. 1 能安排共備社群的課程發展對話時間。                        | 共備社群進行頻率                   | <input type="checkbox"/> 每週一次<br><input type="checkbox"/> 每月一次<br><input type="checkbox"/> 每二個月一次<br><input type="checkbox"/> 其他：_____    |          |          |          |                |                     |                          |
|              |                                      | 4. 2 行政單位能協助形成跨領域課程對話。                        | 行政單位對跨領域課程發展的幫助程度          | <input type="checkbox"/> 對課程發展幫助很大<br><input type="checkbox"/> 對課程發展有點幫助<br><input type="checkbox"/> 對課程發展沒有助益                            |          |          |          |                |                     |                          |
|              |                                      | 4. 3 課程發展能運用學校內外部教學資源。                        | (1)課程共備社群是否利用學校內部資源：       | <input type="checkbox"/> 是<br><input type="checkbox"/> 否(請於右欄說明困難與對策)                                                                     |          |          |          |                | 運用哪些資源？有何助益？        |                          |
|              |                                      |                                               | (2)課程共備社群是否利用學校外部資源        |                                                                                                                                           |          |          |          |                |                     |                          |
| 適性課程實施內涵     | 5. 完整記錄課程發展之運作情形，以供後續改進參考。           | 5. 1 課程共備社群或課程設計小組能定期討論，並有紀錄留存，以供其他教師參考或後續改進。 | 是否有製作課程共備紀錄                | <input type="checkbox"/> 每次都有紀錄<br><input type="checkbox"/> 大部分共備有紀錄<br><input type="checkbox"/> 部分共備有紀錄<br><input type="checkbox"/> 沒有紀錄 |          |          |          |                |                     |                          |

|           |                                    |                                                 |                                                                                                                                                      |  |  |  |  |                                                                                  |                                                                                                         |
|-----------|------------------------------------|-------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|--|--|----------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------|
|           | 5.2 留存歷年教學大綱或檔案                    | 是否留存教學大綱或檔案                                     | <input type="checkbox"/> 是；<br>型式：<br><input type="checkbox"/> 文字記錄<br><input type="checkbox"/> 照片記錄<br><input type="checkbox"/> 其他（可複選）<br>年份：_____ |  |  |  |  |                                                                                  |                                                                                                         |
|           | 6. 課程目標與所建議的學習內容、學習活動、評量安排等具邏輯一貫性。 | 6.1 課程的學習內容、學習活動、評量安排等能呼應課程目標。                  | 課程的學習內容、學習活動、評量安排等能呼應課程目標的程度：                                                                                                                        |  |  |  |  |                                                                                  |                                                                                                         |
|           | 7. 課程內容與教學模式符合學生多元學習需求與適性發展。       | 7.1 課程與教學設計能考量學生學習程度、興趣與未來職涯                    | 課程與教學設計能考量學生學習程度興趣與未來職涯發展需求的程度                                                                                                                       |  |  |  |  |                                                                                  |                                                                                                         |
|           |                                    | 7.2 課程能針對學生學習成果進行評量，評量方式多元且適當（如建立評量標準(Rubrics)） | 評量方式是否多元且適當：                                                                                                                                         |  |  |  |  |                                                                                  | 請敘述評量方式                                                                                                 |
|           |                                    | 7.3 依據發展之課程與教學研發教                               | 教材研發完成程度：                                                                                                                                            |  |  |  |  |                                                                                  |                                                                                                         |
|           | 8. 建立教材資源共享與永續的概念。                 | 8.1 課程教材資源與其他教師共享。                              | <input type="checkbox"/> 教材公開跨校共享<br><input type="checkbox"/> 同校教師共享<br><input type="checkbox"/> 同領域共享<br><input type="checkbox"/> 因故無法公開共享          |  |  |  |  | 說明教材資源共享情形                                                                       |                                                                                                         |
|           |                                    | 8.2 舉辦課程分享會議或活動（如校內辦理或配合局端課程博覽會辦理）              | <input type="checkbox"/> 是<br><input type="checkbox"/> 否                                                                                             |  |  |  |  |                                                                                  |                                                                                                         |
|           | 9. 進行課程評鑑規劃。                       | 9.1 能規劃運用多元課程評鑑結果                               | 能規劃運用多元課程評鑑結果（修訂校訂必修與多元選修等）課程：                                                                                                                       |  |  |  |  | <input type="checkbox"/> 能，請於右欄說明實施方式<br><input type="checkbox"/> 不能，請於右欄說明困難或原因 |                                                                                                         |
| 系統課程評鑑與回饋 | 10. 建立課程發展回饋機制管理多元的課程評鑑結果。         | 10.1 建立學生與其它利益相關人的課程回饋意見之管道。                    | 有無建立學生與其它利益相關人的課程回饋意見之管道                                                                                                                             |  |  |  |  | <input type="checkbox"/> 有，請於右欄說明實施方式<br><input type="checkbox"/> 無，請於右欄說明困難或原因  | 說明：「利益相關人」是指參與學校課程及其組織的一員，對於課程的成功是有責任、有興趣 / 利益的人。<br>例如：發展、設計、執行或經驗課程、甚至關心課程的人，因此包含學生，某些狀況下也可能涵蓋社區成員或家長 |

|                   |                                      |                                   |                                                                                                                            |                                                                                 |  |  |
|-------------------|--------------------------------------|-----------------------------------|----------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------|--|--|
|                   |                                      | 10.2 能系統整理與妥善保存各類課程回饋意見。          | 有無系統整理與妥善保存各類課程回饋意見                                                                                                        | <input type="checkbox"/> 有，請於右欄說明實施方式<br><input type="checkbox"/> 無，請於右欄說明困難或原因 |  |  |
| 11. 善用評鑑結果增進學習成效。 | 11.1 能根據學生學習評量結果與提出的課程回饋意見，進行課程調整。   | 根據學生學習評量結果與提出的課程回饋意見進行課程調整情形      | <input type="checkbox"/> 課程已根據學生評量結果進行調整<br><input type="checkbox"/> 課程調整規劃尚在討論中<br><input type="checkbox"/> 學生評量結果尚在彙整分析中 |                                                                                 |  |  |
|                   | 11.2 能根據他人回饋如公開觀課、議課或共備社群討論等）進行課程調整。 | 能根據他人回饋（如公開觀課、議課或共備社群討論等）進行課程調整情形 | <input type="checkbox"/> 課程已根據他人回饋進行調整<br><input type="checkbox"/> 課程調整規劃尚在討論中<br><input type="checkbox"/> 他人回饋尚在彙整分析中     |                                                                                 |  |  |

## 二、112學年度學校課程評鑑結果
